Working Experience

- 2020 (3m)** National Observatory of Athens - *Intern Data engineer*
I developed a database for storing satellite imagery/geospatial data. The process involved setting up a vm, deploying the database, writing trivial ml scripts to test out the data.
- 2021 (3m - now)** Bluedot - *Full Stack Developer*
Full stack web development with .NET, SSMS, Angularjs.

Education

- 2016 - 2021** Harokopio University, Athens - Bachelor's Degree
- 2019 (Erasmus)** AGH University, Poland - *Erasmus Student*
I did a semester within the erasmus program.

Diplomas

- ECDL (European Computer Driving License)
- C2 (Michigan Proficiency in English)

Software

Be - Binary Editor is a command line hex editor written in the c programming language without having external dependencies + vim bindings.

Frameworks - Languages

Os	Linux, Windows
Frameworks	Flask, ExpressJS, ReactJS, .NET
Markup	html, css
Languages	C, C++, C#, Java, Go, Lua, Python, Javascript, SQL, BASH

Activities - Free Time

- I really enjoy traveling and meeting new people.
 - Chess playing
 - Music - Guitar, Piano, Bouzouki
-
